From the Principal

Mini Olympics
The Grade Prep, 1 and 2 students participated in the Mini Olympics last Thursday. The school leaders ran each activity as the junior children rotated around each event. The children had a fantastic day with lots of smiles and great teamwork. Thank you to Mr Hubbard for organising the event.

Girls Football team
Congratulations to the Girl’s Football team for making it to the State Championships. The Girls came 3rd in the State, a fantastic effort. Thank you to Natalie Pribil who coached the Girl’s over the past few weeks and to the assistant coach Mr Snow.

Father’s Day Breakfast and Stall
A reminder that the Father’s Day Breakfast and Stall is on Thursday 1st September. All orders need to go through Qkr. **Due tomorrow, Friday 26th August by 3.30pm.**

The Grade 5/6 students will attend the Father’s Day Stall on Monday 29th August due to Camp. All other grades will attend the stall on Thursday 1st September.

Morning Tea
As part of the *Almost Anything Goes* night run by PPA a live auction took place to have Morning Tea with Ms Bradney and Mrs Richards. Ben Naulls was the winner and was able to choose 2 friends to join him for the morning.

Last Friday morning the 5 of us went to Parkers Café to enjoy a delicious morning tea. Ben, Nathan and William had a great time drinking raspberry spiders and enjoying French toast and a choc chip muffin.

**CALENDAR**

**Save the Date**

*Friday 21st October*
School Ball

*Sunday 16th October*
Parkdale Art and Craft Exhibition (P.A.C.E.)
2017 School Year
If you have a child in Foundation to year 5 who is not returning to PPS next year, could you please inform the office via email or in person as soon as possible. Also, if you have a child starting in Foundation (Prep) for next year and have not yet enrolled your child, can you please do so immediately. This will assist with planning for class structures and staffing for 2017.

A message from our Environmental Leaders
The Environment Leaders undertook a trash audit from the bins in the classrooms and also the bins outside. From their audit they discovered the following: On average our school has approximately 1300 chip/cracker bags in the classroom bins per week and approx. 2400 chip/cracker bags in the yard bins per week. Plastic does not decompose, it breaks down into smaller forms of plastic until it essentially becomes plastic dust. This process takes many hundreds of years. Some of the things we found in our bins can be eliminated easily.

If you have fruit and vegetable scraps please place them in the compost bins. If you have paper or brown paper lunch bags please place these in the classroom recycling bins. Nude food containers are a great example of how we can eliminate our school’s rubbish. Using these containers will help eliminate the amount of soft plastic that is taking over our bins. Remember that this is our home and that the impact from each individual person being environmentally friendly can help make a better home for future generations. By Selina, Saige, Katie, Bek and Mack

Unpacking the daily MYTERN Message: Appearance

Does your body image control your choice of road more than it should? It can keep us on a red road if we allow it. Your exterior will reflect what is going on inside, so if you feel good inside, then you’re halfway there.

We all know that the images portrayed in social media have been photo shopped, yet we still often want to achieve that flawless look. Take a moment to discuss as a family how each of you or those you know, may have unrealistic expectations about appearance, and how these expectations can send you/them onto a red road.
Talk about how important it is to feel good from the inside, working out ways that can take you from a red road towards a green one. Allocate specific PETS for moments when you may need to change your perspective about your appearance, distracting yourself enough to steer you towards a better road.

Leanne Bradney

CHILD SAFE POLICY

Parkdale Primary School is committed to the safety and wellbeing of all students at the school.

Background:
On 26 November 2015, the Victorian Parliament passed the Child Wellbeing and Safety Amendment (Child Safe Standards) Bill 2015 to introduce Child Safe Standards into law. The Standards will commence from 1 January 2017 for most organisations working with children, with the aim of promoting cultural change in the way organisations manage the risk of child abuse and neglect.

The Child Safe Standards are part of the Victorian Government’s response to the Betrayal of Trust Inquiry into the Handling of Child Abuse by Religious and other Non-Government Organisations. The Betrayal of Trust Report found that while the majority of children are safe in organisations and in the community, more work could be done to strengthen existing approaches to child safety.

The Child Safe Standards aim to drive cultural change in organisations that provide services for children so that protecting children from abuse is embedded in everyday thinking and practice.

The Child Safe Standards
To create and maintain a child safe organisation, an entity to which the standards apply must have:

Standard 1: Strategies to embed an organisational culture of child safety, including through effective leadership arrangements;

Standard 2: A Child Safe Policy or Statement of Commitment to Child Safety;

Standard 3: A Code of Conduct that establishes clear expectations for appropriate behaviour with children;

Standard 4: Screening, supervision, training and other human resources practices that reduce the risk of child abuse by new and existing personnel;

Standard 5: Processes for responding to and reporting suspected child abuse (DET Mandatory Reporting Policy);

Standard 6: Strategies to identify and reduce or remove risks of child abuse;

Standard 7: Strategies to promote the participation and empowerment of children.

Parkdale Primary School will implement the Child Safe Standards to ensure the safety and wellbeing of all students at the school and promote an organisational culture that manages the risk of child abuse and neglect. Our school has developed policies and procedures that aim to keep children safe. The standards will provide a framework to identify gaps and improve policy and practices around child safety.

Once the Policy has been ratified by School Council the Policy will be available on the school's website.

Leanne Bradney
Principal
Are Times Tables the be-all and end-all of Maths? No.
Are Times Tables an extremely useful mathematical tool for future learning? Absolutely!

Just like learning to walk before you can run, learning multiplication and memorizing the Times Tables are building blocks for other math topics taught in school – higher learning such as division, long multiplication, fractions and algebra. Students who have not memorised the Times Tables will find these levels of Math much more difficult than they need to be. There is no time to pull out a calculator or to take 20 seconds to work out a Math strategy before coming up with the answer. Students who have not mastered their Tables will often fall behind in Maths (and other subjects that use Maths) and begin to lose confidence.

Calculators are great tools for figuring out complex calculations. However, using a calculator takes much longer for simple facts and can result in keying errors. Students who rely on calculators can find it difficult to develop estimating skills and are often unaware of wrong answers that occur from keying mistakes.

It is important to remember that children not only need to remember their Tables, but they need to understand them. Memorisation with no understanding can only get you so far. There will be a point where the knowledge can’t be fully applied because it isn’t fully grasped. Children need to understand that 5x3 is the same as 3x5. They also need to understand that if they know 3x5=15 then they know the answer to 15÷3. A child must understand and memorize the facts.

Early on, a student needs to understand what multiplication is – the grouping of sets, repeated addition, a faster way of adding. Show them this with an assortment of manipulatives, by skip counting and by using arrays. As they master the basics, expand upon this concept by creating interesting word problems. Allow them to discover the patterns in the numbers by exploring a 100s chart, skip-counting tables and the Times Table chart. This is the time that they can discover multiplication strategies. There then comes a time when we need to highlight the importance of rapid recall. Students need to know that they should recall the answer instantaneously.

When it comes to learning Tables, as with anything, children learn in different ways. It’s a matter of trying different approaches to find the learning approach that works best for the individual child. Try to find some fun ways to practise the Times Tables at home e.g. songs, computer programs and web-based activities, quizzes, worksheets, etc. Learning by song and repeating the Tables can be very effective. Also having the Tables up on the wall as a visual aid is great. (But remember children need to learn their Tables out of order as well).

Above all, try to make it fun. Repetition is key, whether playing online games or completing worksheets. Real fluency demands practice over weeks; it can take several months until they are truly automatic and even then children will need to keep revisiting them on a regular basis. Working on them consistently will see the best results.
WHAT’S HAPPENING?

Prep
This week we have been learning about the letter ‘Xx’ and our CAFÉ focus was ‘Chunking’ and ‘Onset and Rime’. Our letter of the week next week is ‘Qq’ and our CAFÉ focus is ‘text-to-self connections’.
This Friday is ‘Buddies’, next week will be ‘Show and Tell’.
The school nurse Dani, will be visiting over the next week or so.
You may have heard your child speak of a new award system. The Preps have been learning about various social skills including persistence, getting along, confidence, resilience and organisation. Each week two Preps from each grade will be awarded a certificate for demonstrating one of these social skills. These awards differ to the Star of the Week as unfortunately not every child will receive one. It is only if we see them using one of these skills.

Grade 1
Tomorrow we will begin our new round of Grade 1 Rotations. The children will be learning basic sign language, making thaumatropes, creating Minecraft cities and working on identifying and understanding facial expressions and emotions.
In Maths we have reached end of our unit on ‘Subtraction’, but would love for you to continue practising subtraction sums and strategies at home! There are plenty of fantastic iPad apps that you could try out, we have been using ‘Subtraction’ by eggroll games with some groups!
The Father’s Day stall is next Thursday. Please remember that the spending limit is $5 and children may purchase a maximum of 2 gifts. The Father’s Day Breakfast is also next Thursday morning, all orders will need to be completed on QKR! before 3:30pm tomorrow (Friday 26th August).

Grade 2
This week, students started exploring length in Maths. The children will be ordering length using formal and informal units of measurement.
Our CAFÉ focus this week has been on comprehension ‘Summarize the text, including sequencing of main events.’ Children have been finding and articulating the key ideas and main points that are worth remembering. It would be great to encourage your child to practice this skill when doing daily reading at home.
We have started our new inquiry topic this week, ‘Investigating Water as one of Earth’s Resources’. At home please promote conversation about where water comes from and how it’s used in the home.

Grade 3
We have finished our Maths topic ‘Location and Transformation’ and will be moving on to our next topic ‘Fractions’. Look out for opportunities at home where you can discuss and play with fractions. Sharing food always seems to be a fun opportunity! Our ‘Olympic’ theme has been finalised and we have moved on to our new inquiry topic: ‘Living and Non-Living Things’.
Just a reminder that R.O.A.R. is held in the Grade 3 Hub every Wednesday. If you would like to assist in your child’s class, please come and join us. Also, please let your child’s teacher know if you would like to put your name down for a Term 4 roster.
Please remind your child to complete their Mathletics tasks. These are set every Monday morning and we expect all tasks to be completed by the following Monday. Please also remind your child to write in their daily reading. They need to record the book title and page numbers read.
Congratulations to the recipients of AR Certificates for this week: Oliver D, Maya E, Sam H, Eden B, Maia H, Maksim J, Oscar K, Shrish K, Ronan M, Leif S, Alyssa W, Olivia. F and Darcy F.

Tip of the Week - ‘Times Tables Hurdles Game’ is a fun and interactive game which aims at helping your child learn his/her multiplication tables. The hurdler runs down the field towards a finish line. Along the way, you are presented with times tables and if the answer is correct, the runner will jump the hurdle associated with that question! Only $1.49 from the App Store. Thanks Kirsten and Jack Travis!

*If you have a tip or recommendation you’d like to share in ‘What’s Happening,’ email your teacher and let us know whether you’d like to be named! We look forward to next week’s ‘Tip of the Week!’

Grade 4
The Grade 4s have settled back into normal class routines after weeks of exciting extra-curricula activity, including Camp, Olympic Games and Country studies.
We are continuing our focus on CAFÉ strategies that support student reading ability and have begun our fractions and decimal study in Maths.
All children will receive a new homework project task this week which is due in on the last Monday of term (September 12th). This project is an investigation of either a plant or animal life-cycle and is a home only task. We expect that children will complete this by themselves, but with parent support if required. The children have been given the details but you can also find them on our webpage.
Congratulations to the recipients of AR Certificates for this week: Cooper S, Xavier H, Noah G and Ava P.
WHAT’S HAPPENING?

Grade 5/6
Well done to our Girls’ Football Team who finished 3rd in the State at last week’s Round Robin. A huge effort!

Our classrooms turned into a museum on Monday afternoon and all 5/6 children moved around the area to view 3D representations about different aspects of Australia’s history. It was great to see all the creative designs that were constructed.

All students are studying ‘Location and Transformation’ in Maths until the end of term. Mangahigh online lessons have been set up to further support in class Maths learning.

A reminder that our Father’s Day stall is on Monday 29th August, due to the Camp next week.

All first week campers need to be at school at 8am Tuesday. Could you please make sure any medications are dropped into Mr Snow on Monday or at the latest on Tuesday morning.

SECOND HAND UNIFORM SALE
The Term 3 Uniform Sale will be held on Friday 2nd September between 3.15pm – 3.45pm.

SCHOLASTIC BOOK CLUB ORDERS
Scholastic Book Club Issue 6 catalogues have been handed out this week and orders are due by Wednesday 31st August. A limited number of spare copies are available at the office. Alternatively the catalogue can be viewed online through www.scholastic.com.au/schools/bookclub/catalogue.asp.

Remember you can place your order and pay in the following ways:
To place your order online or through a mobile app and pay by credit card you can go to: scholastic.com.au/LOOP; for iPhones/ iPads download “Book Clubs Loop for Parents” from the App Store; or for android download “Book Clubs Loop” on Google Play. No paperwork or receipt numbers need to be returned to the school. Orders can be placed until midnight on the due date.

To pay by cash, voucher or cheque (made out to Scholastic) please enclose in an envelope along with your completed order form including name and phone number. Place orders in the Book Club box in the Resource Room (near the Staffroom where there are photocopiers) by 3:30pm of the due date.

Gifts or secret orders - Once books are delivered to the school, they are normally distributed to your child. If you would like a secret or gift order, books can be held at the office for you to collect. Please write “OFFICE” on the top of your order form if using the paperwork, or if using LOOP, please choose your child’s class as normal then check the “GIFT” box when entering details for your order. (If in doubt just text us your details as a back up.)

If you have any questions or suggestions regarding the way Book Club operates at Parkdale, please call us or send a text and we’ll do our best to help.

You can also call Scholastic Customer Service direct with queries about any technical difficulties, back orders etc., on 1800 665 774.

Thank you!
Catherine Ramage (0411 515 747)
Katherine Ygosse (0413 520 548)

P.A.C.E. Raffle Donations

The PACE team are helping to raise funds for the Visual Arts program at PPS.

We will be running a kids raffle to be held at PACE on Sunday 16th October, 2016, with the raffle draw to take place the following day at Assembly.

We would appreciate donations of children’s art and craft kits, hand made items (e.g. jewellery, knitted & sewn goods), artistic services (e.g. photography, portrait skills, art lessons) and general art supplies (e.g. canvases, paints, pastels) etc. that can be made up into hampers to raffle.

Please contact Natalie Caughey on nats74@hotmail.com if you would like to donate, or pop your donations into the Art Room by the end of the term.

Thank you in advance for your support.

GREEN SCENE - RUBBISH AUDIT

The Grade 6 Environmental Leaders have been working hard completing their project for Green School. They have completed a rubbish audit from our school’s bins and were very surprised to what they found.

During their rubbish audit (wearing gloves, suits and masks) they emptied bins from the classrooms and the yard. While half of them sorted through the rubbish on the ground and put it into piles, the others used clipboards to collect information of the total number of items in each pile.

From the information they gathered in the rubbish audit they were able to come up with some statistics for the school’s total rubbish. The amount of rubbish thrown out each week from school that is non-recyclable was shocking! This had the girls start thinking about what we can do as a school community to eliminate the amount of trash. The girls presented their findings to the school last Monday at Assembly and have encouraged Parkdale to bring Nude food more often and be conscious about buying snacks in individual wrappers.

Is this one of yours???

On average our school has about **3,700 chip/cracker bags** in the bins per week!
